OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
coho	10/3/98		✓		✓

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Two minnow traps set, one near mouth: 1 coho fry, 3 cutthroat, one above possible barrier, debris jam/falls 3-4' high = 1 cutthroat. Rocky, medium grade before possible barrier. Traps set 24 hr soak, salmon egg bait. Stream 2-4 ft width. FS found 1-3 coho in stream previously, 1

Name of Observer (please print) Peter Branson, P.W. Tech III, Dianne Cassidy, volunteer
 Date: 10/5/98 Signature: Peter Branson
 Address: P.O. Box 2073
Wrangell, AK 99429

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

Signature of Area Biologist:
